

ABOUT

Legacy Prime Holding Co. Ltd.
Thailand

LEGACY PRIME

Since Thailand is the first country in Asia that has approved of the use of Cannabis plants for Medicinal uses; by the Medical Marijuana Legislative Assembly (NLA). The Narcotic Acts changes become law and have been published in the Royal Thai Government gazette. The lifting of restrictions includes Plantation, Production, import, export, possession, and use.

Legacy Prime (Thailand) Company Limited, was established in 2019 with the lead investor: Regal Asset Holding Asia Limited. We focus on the business sector of Cannabis Investment covering: Seeding, Plantation, Medical Research, Manufacturing, Import & Export.

We aim to set up a Joint Venture with eligible Government Organizations, Bureaus, and Ministries, including the "Department and Local Administration" to acquire the license to trade and market in Thailand, Japan and Korea, UK and Europe.

Products

The purified form of THC and CBD for medicinal use would be the new organic medical solution for people's health. In Thailand, THC and CBD are planned to be the key solution to reduce the Country's cost of importing medicine. There is a high demand for THC and CBD of around 100,000 to 1,000,000 patients in Thailand.

This also has the potential of producing other alkaloids, such as CBA CBN, which are effective for future medicinal uses.

To lead the whole market & ecosystem of Thailand, we will use the most advanced & latest technology for CBD, CBA, CBN, and other alkaloids extraction system which could remove the toxic patricides innovation. data 2019.

Market

The World's market for this is large and growing: including medical as well as legal recreational products. The market is expected to generate up to \$22.8 billion in total sales in 2020 and is aimed to reach \$57 billion in 2027 with the compound annual growth rate of 31%.

For more insight, while the growth of the cannabis market is expected to be fast, Asia is the top of the biggest market of all the regions with up to \$133 billion or 38% of the total Cannabis world's market reportedly by New Frontier data 2019.

Conclusion

Our goal is not only farming and research. We also aim to supply reliable and advanced cannabis life solutions to Government agencies, Hospitals, other services, and regular consumers. Our company is also focused on improving the quality of living for southeast Asia citizens starting from Thailand by practically improving all aspects of the economy and society.

Co-Operative Strategy

We aim to co-operate as a B2G by joining with the government sectors to operate & scale the edge of the market landscape.

To build a sustainable foundation of Cannabis in South East Asia, we believe that the key is to create a whole ecosystem of the Cannabis Industry. It is important to understand not only demand, the supply, the advancement of technology, but also the scientific understanding of Cannabis that need to be developed to a standard in each region and country.

By cooperating with the Government, not only brings big opportunities for business but also opportunities to increase the scale of the Cannabis Industry's Ecosystem as well.

Our Vision is to see Legacy Prime Holding and Government Sectors developing the market of Cannabis and scale up the market together as well as improving the sustainable future of the people's wellbeing economically and socially.
